

Lubna Al Haani Binti Radzuan

Johor, Malaysia | (+60) 11-2878 1613 | lubnaahr24@gmail.com

LinkedIn: [Lubna Al Haani](#)

Summary

Computer Science student with a Data Engineering focus. Passionate about developing efficient software solutions and managing data-driven systems. Skilled in programming, database design, and data analysis, with a strong interest in innovating technology to solve real-world problems. Eager to apply both theoretical knowledge and practical skills in professional environments.

Education

University Technology Malaysia

Johor, Malaysia | Oct 2023 - Present

Bachelor of Computer Science (Data Engineering) with Honours

- Current CGPA: 3.95
- Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Programming, Artificial Intelligence, Enterprise System Design and Modelling.
- Leadership: Exco Welfare & Spiritual (PERSAKA), Exco Technical (PROSIS).

Malaysia Matriculation Programme

Johor, Malaysia | Aug 2022 - July 2023

Matriculation Certificate in Physical Science

- CGPA: 4.00
- Relevant Coursework: Computer Science, Physics, Chemistry, Mathematics

Project Experience

UTHM Student Clubs and Activities Management System

Oct 2025 - Jan 2026

- Designed and developed the Asset Borrowing System for Club Events, enabling users to request institutional assets for approved club activities.
- Implemented asset inventory management features, including asset availability tracking, status monitoring, and quantity management.
- Created system analysis and design artifacts, including functional requirements, user stories, activity diagrams, and sequence diagrams for the asset management module.
- Collaborated with a team to develop an enterprise-level Student Clubs and Activities Management System prototype using SAP Build Apps and enterprise architecture principles.

KADA Cooperative System

Oct 2024 - Feb 2025

- Managed a team of five to execute project milestones and deliverables.
- Digitalized the manual cooperative management process into a fully functional web-based system for KADA (Kemubu Agricultural Development Authority) Cooperative.
- Designed and implemented a relational database schema to manage membership, savings, and loan transactions.
- Developed interactive, user-friendly web interfaces using PHP, HTML, and CSS, ensuring navigation and accessibility.
- Collaboratively authored the Agile project documentation, including Software Requirement Specification (SRS), System Design Document (SDD), and Software Test Document (STD) with cross-functional team members.

Course Registration System

Oct 2024 - Feb 2025

- Built a web-based course registration platform allowing students to register and view courses and modify registrations.
- Designed a role-based access control system with specific functionalities tailored to three unique user groups.
- Implemented a relational database schema up to 3NF normalization, ensuring data integrity and eliminating redundancy.
- Developed detailed technical documentation, including system design, ERD modeling, database design, and a structured breakdown of development milestones.

Extracurricular Activities

MALAYSIA DATA INNOVATION TALENT x DOSM DATATHON

Aug 2025 - Sept 2025

- Analyzed five structured secondary DOSM datasets to identify socioeconomic gaps and used exploratory data analysis (EDA) to uncover key drivers of economic inequality within the B40 demographic.
- Executed data wrangling tasks in Python and used Excel and Strategy One to synthesize and format datasets for final analysis.
- Visualized the findings into a dashboard in Strategy One using charts and graphs such as bar charts, line graphs, KPIs, and geographical maps.

CISCO AI Hackathon (Smart Education)

Oct 2024 - Dec 2024

- Developed a conceptual AI-based solution addressing challenges in learning accessibility through personalization of learning style and adaptive content delivery.
- Designed a prototype in Figma, ensuring an interactive user interface and learning efficiency.
- Improving problem-solving skills and team collaboration.

Certificates

- | | |
|---|-----------------------------------|
| • Microsoft Certified: Azure Data Fundamentals (AZ-900) | Microsoft <i>Feb 2025</i> |
| • AI Fundamentals with IBM SkillsBuild | Cisco <i>Dec 2024</i> |
| • Artificial Intelligence Fundamentals | IBM SkillsBuild <i>Nov 2024</i> |

Skills

- Programming: Python, Java, C++, HTML
- Database Management: MySQL, PHPMyAdmin
- Data Tools: Excel, StrategyOne, Pandas
- Language:
 - Malay: Native
 - English: Upper Intermediate
 - Korean: Basic
 - Mandarin: Basic
